How to provide required resources for Run3 and Run4

Wednesday, 16 October 2019 16:10 (25 minutes)

This presentation will cover how CERN is proposing to provide the computing capacity needed for the LHC experiments for RUN3 and for RUN4. It will start with some history on the failed attempt to have a second Data Centre ready for RUN3, then describe the solution adopted for RUN3 instead and finally the current plans for RUN4.
