

Update on Federated Identity Management and AAI

Thursday, 17 October 2019 09:25 (25 minutes)

A number of co-located meetings were held at Fermilab in early September in the area of Federated Identities and AAI (Authentication and Authorisation Infrastructures) for Physics, including a F2F meeting of the WLCG Authorization Working Group and a mini-FIM4R meeting. This talk gives a high-level overview of these meetings and related recent progress in this area.
