

AGLT2 Site Report Fall 2019

Tuesday, 15 October 2019 09:15 (15 minutes)

We will present an update on our site since the Spring 2019 report, covering our changes in software, tools and operations.

Some of the details to cover include our use of backfilling jobs via BOINC with cgroups, work with our ELK stack at AGLT2, updates on Bro/MISP at the UM site and information about our newest hardware purchases and deployed middleware.

We conclude with a summary of what has worked and what problems we encountered and indicate directions for future work.

Speaker release

Yes

Desired slot length

12

Primary authors: MC KEE, Shawn (University of Michigan (US)); Dr WU, Wenjing (University of Michigan); LAURENS, Philippe (Michigan State University (US))
