HTCondor Workshop at EC-JRC 24 – 27 September 2019

Helge Meinhard / CERN-IT HEPiX Amsterdam 15-Oct-2019

HTCondor Workshops

- Held in Europe
- Complementary to yearly (~ May) HTCondor weeks in Madison (WI)
- Number of precursors (Bologna 199x, Milano 2006, ...)
- This series: CERN Dec-2014, ALBA Feb-2016, DESY Jun-2017, RAL Sep-2018 – now JRC
- Started Tue 24-Sep in the morning, finished Fri 27-Sep at lunchtime (½ day more than previously)
- This time: comprehensive coverage of HTCondor-CE as well

Workshop September 2019

- Hosted by the European Commission's Joint Research Centre in Ispra, Lombardy, Italy (very close to the shores of Lago Maggiore)
 - Previously a EURATOM research site, now a pluridisciplinal centre for research supporting the EC's policy decisions
 - Impressive examples by JRC presentations and site visits
 - One (the largest, more than 2'000 employees) of six JRC sites totalling about 3'000 employees
- Number of interesting HTCondor use cases
- Excellent local organisation by Antonio Puertas Gallardo, Dario Rodriguez and numerous helpers

Attendees (1)

- 61 registered participants
 - 55 from Europe, 4 from HTCondor team at U Wisconsin-Madison, 1 other North American, 1 from South Africa - European attendees include 17 from JRC
 - Healthy mixture of experienced and first-time attendants!
 - Dominated by academia and research could do with more company participation
 - But good to see attendance by others than HEP and physics increase
- 27 different affiliations
 - 24 from Europe
 - 5 Italy, 3 Belgium, 1 France, 3 Germany, 2 Czech Republic, 1 The Netherlands, 1 Russia, 2 Spain, 2 Switzerland, 4 United Kingdom
 - 2 from North America
 - 1 from South Africa

Attendees (2)

Presentations

- 38 contributions, 22 different speakers
- Total duration: 19h 05'; HTCondor team: 11h 20'
- Rich, very interesting, dense programme
 - Comprehensive coverage of HTCondor and HTCondor-CE by developers, many helpful tips
 - User reports on HTCondor and HTCondor-CE usage in the field, lots of user suggestions much appreciated by HTCondor team
- Agenda, material: https://indico.cern.ch/e/htcondor2019

HTCondor Team Presentations

- Philosophy and Architecture of HTCondor
- ClassAd Advanced Tutorial
- Negotiator Policy and Configuration
- Advanced Job Submission and Transforms
- Python Bindings Tutorial
- What's new in HTCondor? What's coming up?
- HTMap and HTC Notebooks: Bringing HTC to Python
- Moving Job Data
- Federating HTCondor Pools
- SciTokens and Credential Management

- Security Mechanisms in HTCondor
- Interface to HTCondor via REST
- Containers with HTCondor: Docker, Singularity
- Reflections on HTC Needs and Directions
- HTCondor-CE Overview: From Clusters to Grids
- HTCondor-CE Basics and Architecture
- HTCondor-CE Configuration
- HTCondor-CE integration with APEL and BDII
- HTCondor-CE Trouble shooting and Questions/ Answers
- HTCondor-CE: What Next?

User Presentations

Healthy mixture of 'site report' style talks and in-depth, drill-down of specific items:

- U Bonn
- DESY Hamburg
- CERN

- JRC
- INFN Milano
- CMS Global Operations
- CC-IN2P3 Lyon
- INFN Torino (VIRGO)
- U Freiburg

Office Hours

- Occasion for one-on-one discussions between HTCondor team members and participants on specific issues
- Additional half-day permitted dedicated time slots – much appreciated by everybody

Visits, Social Events

- Dedicated time slots for site visits on Wednesday, Thursday and Friday
 - ESSOR Nuclear Reactor
 - Smart Grid Interoperability Laboratory
 - ELSA: European Laboratory for Structural Assessment
 - Delta of attendees' knowledge about host institute probably much larger than ever – also thanks to presentations about JRC's use of HTCondor
- Welcome reception with snacks, prosecco and beer
- Social dinner

Feedback and Next Workshop

- Very positive reactions by attendees including the HTCondor team ("better and more intense discussions than at HTCondor week")
- Next workshop: Probably 2nd half of September for 3 ½ days again, venue to be decided
 - Two firm offers received
 - Interest to host (next or any future) workshop? Talk to me...

Conclusions

- Workshop (series) much appreciated by community and developers alike
- No question about continuing the series
- Feedback, proposals, criticism? Get in touch!
- Interested? Join us next year!
