

**Session Program**

**2-4 Feb 2010**

**5th CLIC Advisory Committee (CLIC-ACE)**

***DB+MB generation***

CERN, 354/1-001

## Tuesday 2 February

13:45

### DB+MB generation

**Session** | **Location:** CERN, 354/1-001

13:45–14:15

**Drive beam generation; klystrons, RF structures, efficiency, modulators, Phase and ampl. Stability of Rf systems****Speaker**

Dr Erk Jensen

14:15–14:20

**Discussion**

14:20–14:50

**Drive beam generation: phase coding, satellite bunches, R&D results and planning, CTF3 measurements****Speaker**

Frank Tecker

14:50–15:00

**Discussion**

15:00–15:30

**Overview and status of phase stabilisation concept****Speaker**

Daniel Schulte

15:30–15:40

**Discussion**

15:40–16:00

**R&D program for RT phase feedbacks****Speaker**

Giulio Morpurgo

16:00
