

# **EOS operational status**

**Luca Mascetti**  
**CERN IT Storage**

# Current EOS operational Status and Roadmap

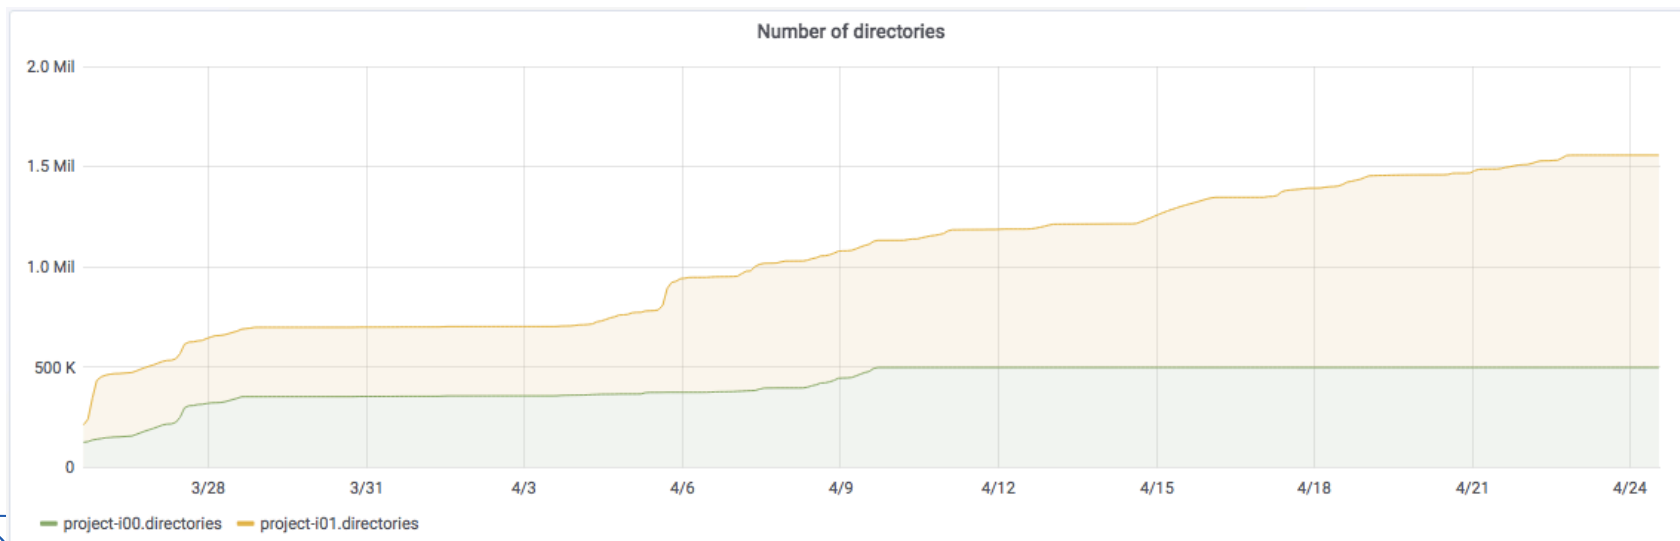

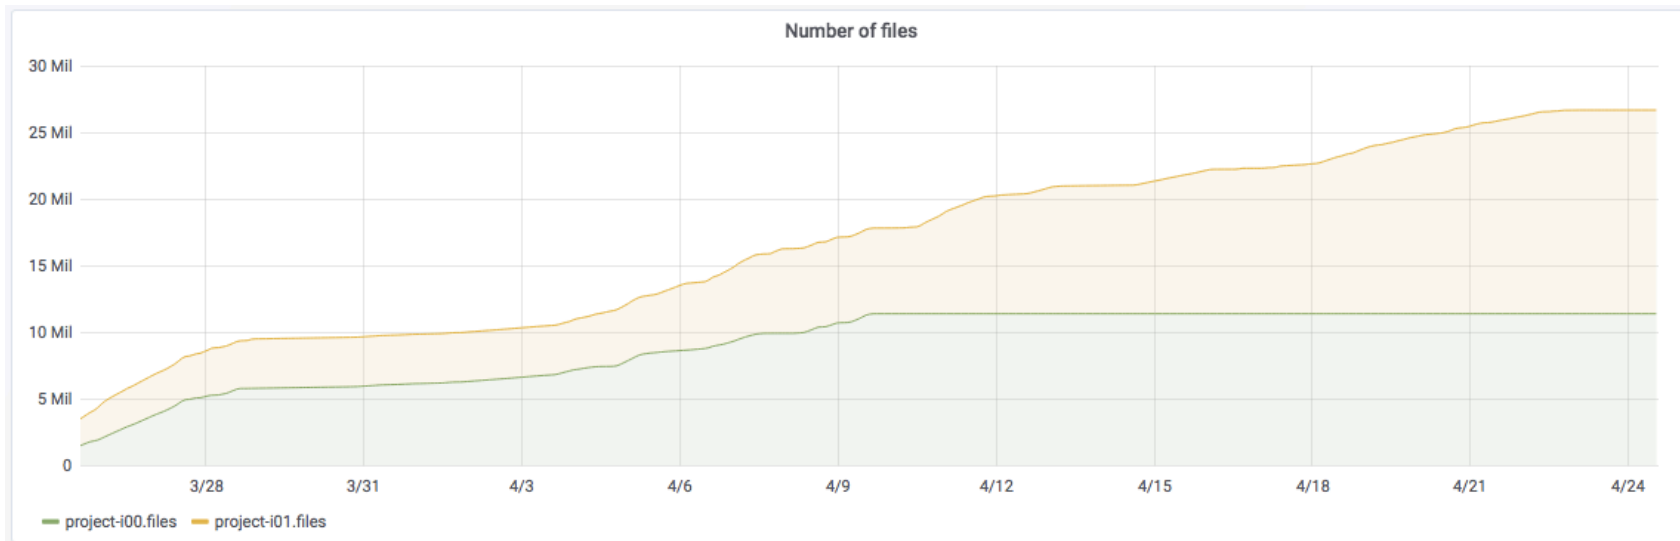

# Current EOS operational Status and Roadmap

# Current EOS PROJECT operational status

- **EOS-PROJECT instance setup**
  - **eos-project-00 done**
  - **eos-project-01 done**
  - **eos-project-02 partially done**
    - **still missing some hardware but not a blocker**
- **/eos/(new)project/**
  - **Enabled mountpoint on lxplus/lxbatch**
- **Migration**
  - **pre-filling of the project instances ongoing**
  - **soon all new projects will be created there**

# EOSPROJECT background transfers

# Summary

- **High pressure from Wigner decommissioning**
- **EOS-PROJECT Delayed by ~2 months**
  - **not blocking other main activities**
  - **if impacted let us know**
    - **we can prioritise the migration/move by project**
- **New project will be created in the new instances**
- **Project by project migration**
  - **similar to user migration (less complex)**

**Thanks for the attention!**
