

# ALCF

## Dr. Katherine Riley Director of Science

- ALCF is committed to the evolving computational needs from science that is driven heavily by data and learning based innovations.
  - Pioneering Argonne Data Science Program focuses on folding the science needs into facility design and balance
    - Servers current systems
    - Aurora/A21 designed around integrating simulation, data and learning.
  - ALCF welcomes collaborations to jointly explore the needs of data and learning communities
- 

ALCF Data Science Program (ADSP) - now open

SUBMISSION DEADLINE: July 1, 2019 at 5 PM CDT
