

DREB2022 - Direct Reactions with Exotic Beams

Thursday, 30 June 2022

THU2 - Facultad de Ciencias de la Comunicación (11:20 - 13:00)

-Conveners: Marina Petri

time	[id] title	presenter
11:20	[244] Neutron-proton pairing in the self-conjugate unstable nuclei ^{56}Ni and ^{52}Fe through transfer reactions	ASSIE, Marlène
11:40	[200] Unbound states in $^{16,18,20}\text{C}$ with the R ^3B /LAND setup: the search for the mixed-symmetry 2^{+} state	MURILLO MORALES, Silvia
12:00	[234] Direct reactions studies with ACTAR TPC: highlights from the first transfer experiment at GANIL	FERNANDEZ DOMINGUEZ, Beatriz
12:20	[235] Observation of a Near-Threshold Proton Resonance in ^{11}B	Dr ALMARAZ-CALDERON, Sergio
12:40	[237] Total Reaction Cross-Section Measurements in the Commissioning Experiment for R3B	PONNATH, Lukas
