

# LHC Lumi Days 2019

## Tuesday, 4 June 2019

### Session 2a: Impact of accelerator instrumentation on vdM calibrations - 874/1-011 (14:00 - 15:45)

-Conveners: Georges Trad

time	[id] title	presenter
14:00	[7] LHC beam current measurement: performance and issues in Run 2, prospects for Run 3	PALM, Marcus
14:20	[8] LHCb ghost-charge measurement & FBCT corrections	COOMBS, George MATEV, Rosen
14:40	[9] LHC beam orbit & position measurement	GASIOR, Marek
15:00	[10] LHC beam orbit and collision position determination & control – performance and issues, prospects for Run 3	Dr WENNINGER, Jorg
15:20	[11] Impact of orbit drifts & magnetic-hysteresis effects on vdM & length-scale calibrations	KOZANECKI, Witold
