

TREDI2020: 15th "Trento" Workshop on Advanced Silicon Radiation Detectors

Wednesday, 19 February 2020

Silicon Photomultiplier - TU the Sky (13:00 - 14:20)

-Conveners: Marko Mikuz

time	[id] title	presenter
13:00	[55] SiPM development at FBK for the barrel timing layer of CMS	Dr MAZZI, Alberto
13:20	[53] Performance variation of FBK Silicon Photomultipliers with proton radiation up to 10^{13} neq/cm ²	Mrs ALTAMURA, Anna Rita
13:40	[20] Progress on a UV Sensitive SiPM for Readout of the Fast Component of BaF ₂ Scintillation Light	Prof. HITLIN, David
14:00	[46] Sub-nanosecond charged particle detector with fast scintillator and hybrid photodetector	Dr GAREL, Jonathan
