

# GDB Introduction

Josep Flix [PIC/CIEMAT]

Mattias Wadenstein [University of Umeå]

GDB, 8<sup>th</sup> April 2020: Zoom-only meeting

# Meeting Details

This is the first GDB that we are running through Zoom:

If there is lots of background noise, I'll mute everyone

To ask questions either just unmute yourself, or use the “raise hand” functionality in the “Participants” section of the client

After the meeting, please give the chairs private feedback on how it worked - in particular how it was compared to Vidyo

# Meeting summaries

Summaries were typically prepared by team of volunteers (thanks!)... but last meetings it was on Mattias and myself shoulders...

- if **you take notes, please share them with us**
- Will be available at

<https://twiki.cern.ch/twiki/bin/view/LCG/WLCGGDBDocs>

Since today is full virtual, we will regularly monitor the Zoom chat

# Today: Main topics

BelleII Computing Status **[POSTPONED to May]**

EISCAT\_3D update

GGUS Discussion

DOMA F2F meeting report

Rucio Workshop report

Scientific Computing Forum update

Quantum Computing for HEP

→ Thanks in advance to all of today's speakers!

# Upcoming pre-GDBs/GDBs

In light of how things develop we will be announcing how pre-GDB and GDB meetings will be handled...

May GDB is happening on the previously announced day, one week early, on **May 6th** with remote only participation.

**Pre-GDB on May 5th** on CVMFS and software distribution.

The June GDB previously announced to be at BNL will not be in person at BNL. But maybe we'll run it later to be more friendly to North American time zones - decision and announcement will come later, feedback welcome.

# Upcoming meetings

- Anything we've missed, let us know & we'll add it to the slide [■]: **new entries**

# GDB / pre-GDBs organization

Let Pepe and myself know if you have topics to bring to the GDB or propose topics for thematic pre-GDBs

Also, let us know if you would like things to happen/improve. We subscribe to the philosophy of continuous improvement and would like to improve the GDB forum at every opportunity.

# Covid-19 reflections

The middle of a pandemic can be an uncertain and stressful place. Let's be careful and try to get through this with minimal negative impact to our health, physical or mental.

# Questions?
