GDB, 10^h June 2020: remote meeting

Meeting Details (Covid-19 matters)

Travel restrictions are starting to be lifted this summer in Europe, but we can also assume that some institutes will be more conservative on travel than national rules.

We also don't want to risk a setback to CERN's important on-premise work with a meeting that can be virtual.

For the moment, expect to have the GDBs and pre-GDBs as remote-only meetings, at least until October 2020...

The most important thing for you, your relatives and friends is to **stay healthy!**

Meeting summaries

The co-chairs try to take notes for the meetings, but since we sometimes might be busy running the meeting the notes can possibly be lacking.

If you think that the notes from GDB meetings should be improved, please consider taking notes and share a copy with the chairs, so we can merge them.

Notes from old meetings are available here:

Today: Main topics

EOSC-hub week report
LHCOPN-LHCONE update
dCache virtual workshop report
Storm Future Directions

Morning
Afternoon

Operational Intelligence
ATLAS data carousel report
HSF WLCG Virtual Workshop on New Architectures,
Portability, and Sustainability summaries

→ Thanks in advance to all of today's speakers!

Social lunch experiment

For those of us that miss having less formal discussions in small groups during lunch, we'll have a set of zoom rooms available.

It is not required (or even expected) for all to participate, prioritizing family or a nice stroll outside are valid choices, but the opportunity is available.

The set of zoom rooms are coded with colour names and linked from the agenda, all use the same password as the main room. I suggest coordinating in the main room by voice or chat (“let's talk about GGUS in green”, “sharing cat pics in orange”).

Upcoming pre-GDBs/GDBs

Currently no booked pre-GDB slots, if you want one for a virtual meeting, please contact the chairs. August GDB will likely be cancelled due to vacations, as usual.

Plans are underway to co-locate the November GDB with the EGI conference in Amsterdam.

Please, refer to the GDB indico area to know about the agreed schedule:

GDB / pre-GDBs organization

Let Pepe and myself know if you have topics to bring to the GDB or propose topics for thematic pre-GDBs

Also, let us know if you would like things to happen/improve. We subscribe to the philosophy of continuous improvement and would like to improve the GDB forum at every opportunity
