

## **Session Program**

**22-25 Feb 2010**

### **RD51 mini week**

#### ***WG1 - Technological aspects & development of new detector structures***

CERN, IT Auditorium

# Monday 22 February

14:00

## WG1 - Technological aspects & development of new detector structures

**Session** | **Location:** CERN, IT Auditorium

### 14:00–14:20 CMS upgrade feasibility studies

**Speaker**

Archana Sharma

**Location**

CERN, IT Auditorium

### 14:20–14:30 Gas flow simulations for CMS design

**Speaker**

Stefano Colafranceschi

**Location**

CERN, IT Auditorium

### 14:30–14:50 MAMMA

**Speakers**

Joerg Wotschack, Mr Marco Villa

**Location**

CERN, IT Auditorium

### 14:50–15:10 Update on spherical GEMs

**Speaker**

Serge Duarte Pinto

**Location**

CERN, IT Auditorium

### 15:10–15:40 break

### 15:40–16:00 GEM@school

**Speakers**

Gabriele Croci, Dr Richard Plackett

**Location**

CERN, IT Auditorium

### 16:00–16:20 Portability and policapillary for X ray imaging

**Speaker**

Fabrizio Murtas

**Location**

CERN, IT Auditorium

### 16:20–16:40 GEM module for Large Prototype TPC

**Speaker**

Stefano Caiazza

**Location**

CERN, IT Auditorium

16:40–17:00

**Micromegas for DHCaI****Speakers**

Catherine Juliette Adloff, Maximilien Chefdeville

**Location**

CERN, IT Auditorium

17:00–17:20

**GEMs for DHCaI****Speakers**

Andrew White, Prof. Jaehoon Yu, Mr Seongtae Park

**Location**

CERN, IT Auditorium

19:00
