Double-Parton-Scattering studies with quarkonia

Tuesday, November 19, 2019 11:40 AM (20 minutes)

I will review the status and prospects of studies of Double Parton Scatterings with associated and pair production of quarkonia. This includes J/ψ pairs, Upsilon pairs, Upsilon+ J/ψ , J/ψ +D, Upsilon+D, J/ψ +Z and J/ψ +W at the LHC and the Tevatron.

Primary authors: LANSBERG, Jean-Philippe (Centre National de la Recherche Scientifique (FR)); LANSBERG, Jean-Philippe (IPN Orsay, Paris Saclay U. / IN2P3-CNRS)

Presenter: LANSBERG, Jean-Philippe (IPN Orsay, Paris Saclay U. / IN2P3-CNRS)

Session Classification: Double Parton Scattering

Track Classification: Double Parton Scattering
