Safetyn veut permettre aux pilotes de mieux réagir en situation de crise. - Safetyn

Un outil pour diagnostiquer le cancer de la prostate

La start-up Picotech vient d'intégrer l'incubateur du Cem Innogex, à Saint-Genis-Pouilly, afin d'y développer et commercialiser des modules pour l'imagerie médicale et plus spécifiquement le diagnostic du cancer de la prostate.

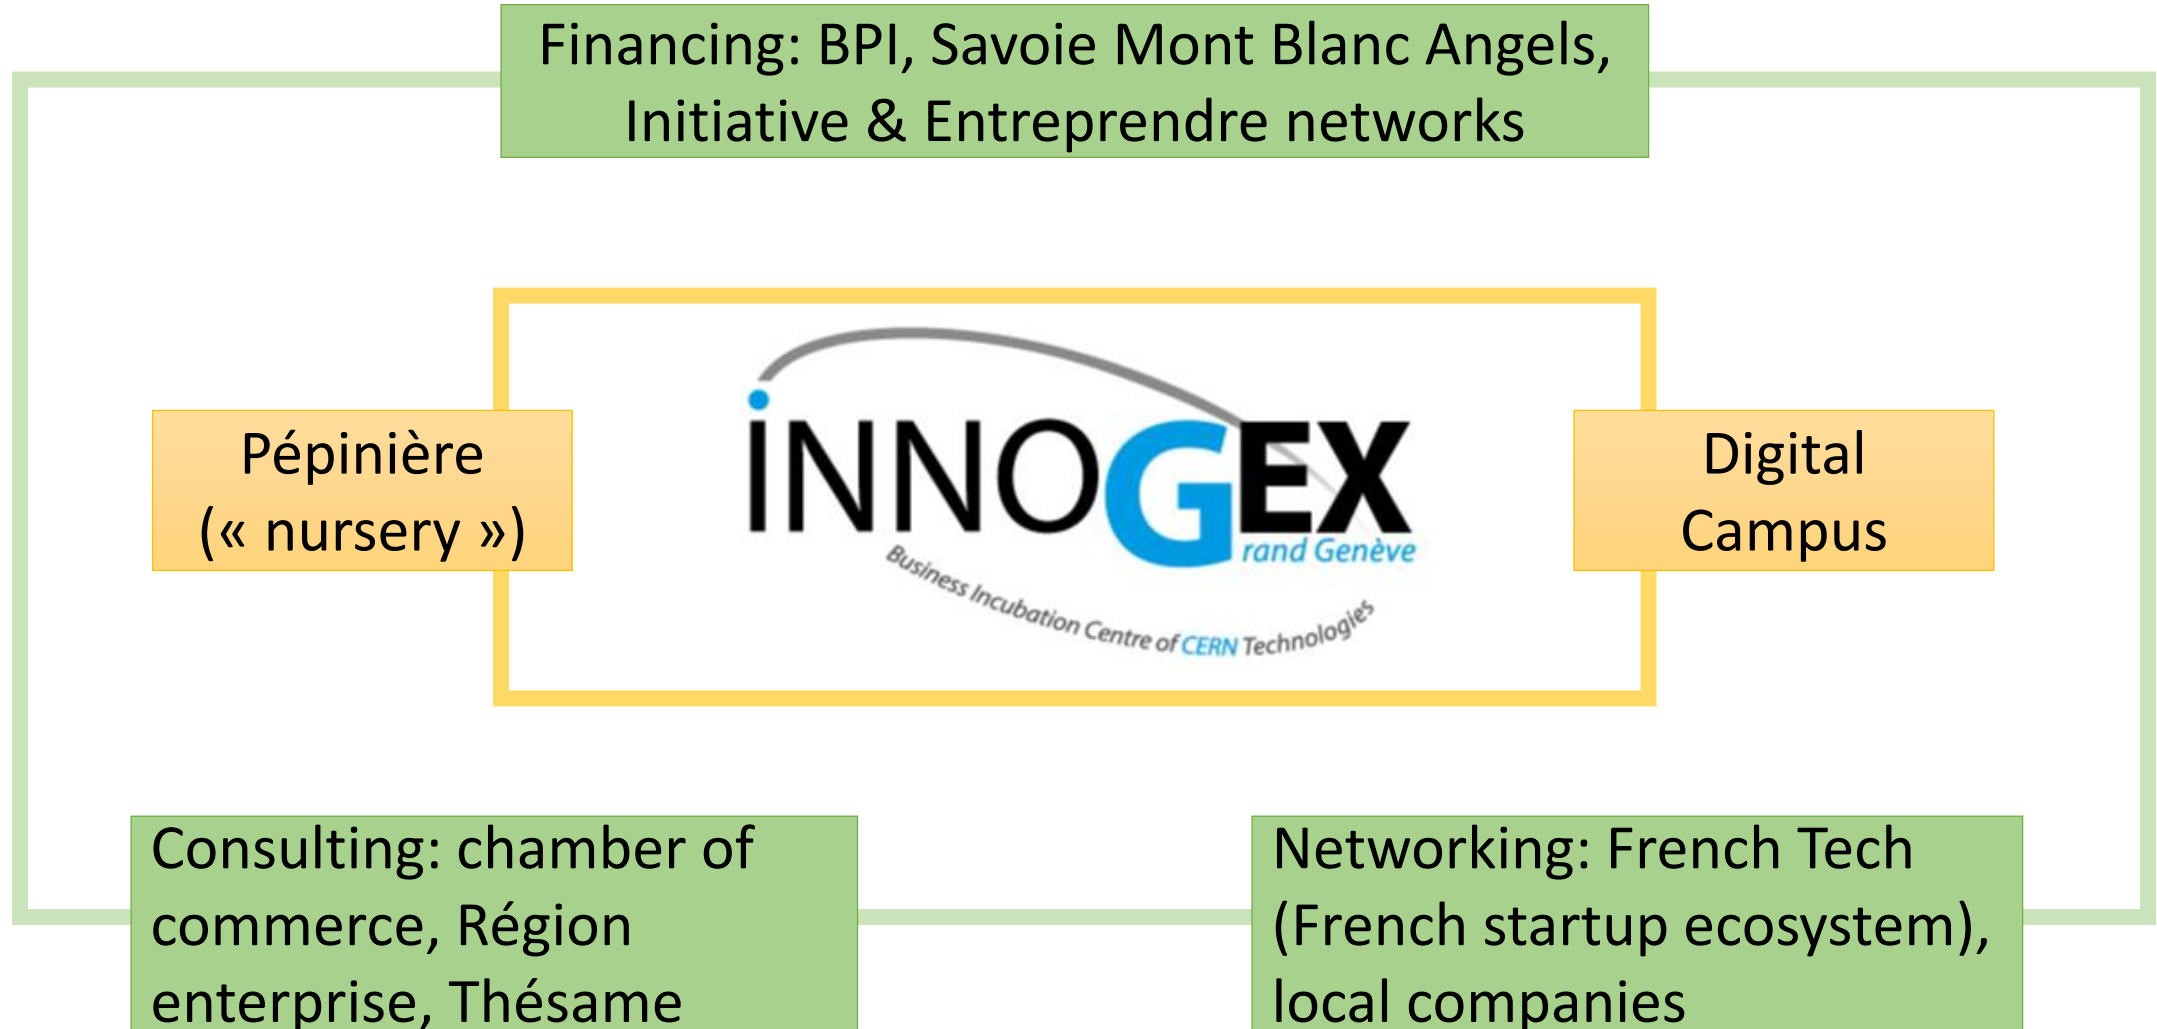

Vu 1360 fois | Le 27/02/2019 à 11:10 | mis à jour à 11:13 | Réagir

Au lieu de scanner tout le corps, le scan Picotech va cibler un seul organe, la prostate. Photo LE DL

- **Office space**
