

Session Program

16-18 Dec 2019

NuPhys2019: Prospects in Neutrino Physics

Long-baseline neutrino oscillation experiments (present and future)

Cavendish Conference Centre, London, UK
22 Duchess Mews, London W1G 9DT, UK

Wednesday 18 December

09:30

Long-baseline neutrino oscillation experiments (present and future)

Session | **Location:** Cavendish Conference Centre, London, UK, 22 Duchess Mews, London W1G 9DT, UK

09:30–10:00 **T2K and T2K-Upgrade**

Speaker

Atsuko Ichikawa

10:00–10:30 **Recent results from NOvA**

Speaker

Jeremy Hewes

10:30–11:00 **Modular invariance approach to the flavour problem**

Speaker

Ferruccio Feruglio

11:00

11:30

Long-baseline neutrino oscillation experiments (present and future)

Session | **Location:** Cavendish Conference Centre, London, UK, 22 Duchess Mews, London W1G 9DT, UK

11:30–12:00 **DUNE**

Speaker

Nicola McConney

12:00–12:30 **Hyper-Kamiokande**

Speaker

Steve Playfer

12:30–13:00 **CERN neutrino platform overview**

Speaker

Stefania Bordon

13:00
