

Kyungseop Yoon

CERN Summer Student (EP-SFT)

University of California, Irvine

2019 Summer Student Session

August 6, 2019

Nationality: South Korea

Education: University of California, Irvine

- Physics, B.S.
- Graduating in 2020

CERN Summer Student:

- Department & Group: EP-SFT, Geant4 Collaboration
- My plan after being a CERN Summer Student is to apply to Physics PhD programs in the United States.
- I appreciate every single part of my stay at CERN, except for the hot temperature during some weeks. Some of the things which enriched my experience are the scientific environment, people, experimental facilities, computing resources, library, cafeteria food, lectures and workshops, and location.
