

Introduction

- My name is Roshan Joshi and I am from Nepal.
- Undergraduate student majoring in Physics at St. Xavier's College, Kathmandu, Nepal.
- I have been working in EP-ADE-TK department to improve the sensitivity in search for Di-Higgs.
- I am going to apply for PhD programs in the US after my internship is over.
- The thing that I liked most in my experience as summer student is meeting with new people and having conversation with them, and of course working on my project.
