

Alps 2020

an Alpine LHC Physics Summit

April 13-18, 2020, Obergurgl University Center, Tyrol, Austria

Local Organizers:

Alberto Escalante Del Valle
Axel Torsten Maas (chair)
Brigitte De Monte (secretary)
Christoph Schwanda
Florian Reindl
Massimiliano Procura
Robert Schoefbeck (co-chair)
Valentyna Mokina
Wolfgang Lucha

Scientific Advisory Committee:

Francesca Calore (LAPTH Annecy)
Franz Muheim (University of Edinburgh)
Freya Blekman (Vrije Universiteit Brussel)
Jenny List (DESY Hamburg)
Kai Schmidt-Hoberg (DESY Hamburg)
Reisaburo Tanaka (LAL Orsay)
Roman Zwicky (University of Edinburgh)
Stefania Gori (University of Cincinnati)
Steven Lowette (Vrije Universiteit Brussel)

Continuing the yearly tradition since 2016, we will meet in the Austrian Alps to discuss recent results and developments in experimental and theoretical particle physics. The dates of the meeting are April 13 - 18, 2020 and the following topics are at the focus of the meeting:

- **Higgs and Standard Model physics**
- **Beyond the Standard Model physics**
- **Flavor and hadron physics**
- **Neutrino physics**
- **Dark matter**
- **Future colliders**

The days are divided into morning sessions with keynote talks, and late afternoon sessions that will comprise shorter presentations on more specialized topics and the Young Scientist Forum. The meeting will take place at the Obergurgl University Center, in the ski-resort town of Obergurgl, located in the upper Ötztal valley in Tyrol, Austria.

Abstract Submission Deadline: 28th of February 2020

Registration Deadline: 12th of February 2020
