

# ISOTDAQ 2019

Debriefing

# 2019 edition : numbers

- See word document
- Few elements stand out compared to previous years.
  - Accommodation facilities (worse)
  - Level of lectures (better)

# Students feedback

- Very positive in general !

# Students feedback (excerpt)

- Problems and complaints
  - Too hard !
  - Too easy !
  - Lack of big picture, especially in the first days
  - Some presentations were «very convoluted and difficult to follow» while the presenters were good and had charisma
  - Application form worked very badly

# Students feedback (excerpt)

- Ideas / suggestions
  - Distribute the female students randomly
  - Offer two accommodation options: economy and business
  - Can we address "machine learning"?
  - Make sure lectures start and end on time, leave more time for lunches (90 minutes).
  - Improve the quality of the lab book
  - Choose which labs to do
  - If it were organized in China or India it would be useful to more people

Tour de table
