

PPC 2021: XIV International Workshop on Interconnections between Particle Physics and Cosmology

Wednesday, 19 May 2021

Dark Sector Models (16:00 - 17:30)

-Conveners: Rachel Houtz

| time | [id] title | presenter |
|-------|---|------------------------|
| 16:00 | [154] Baryogenesis and Flavored Dark Matter from Broken Twin Color | VERHAAREN, Christopher |
| 16:15 | [161] Z' bosons at the P2 experiment | ZHANG, Yongchao |
| 16:30 | [167] Probing dark matter and dark energy with strong gravitational lensing | BIRRER, simon |
| 16:45 | [191] Flavor anomalies from a split dark sector | SESSOLO, Enrico Maria |
| 17:00 | [228] Indirect Detection Signatures of a Dark Glueball Spectrum | GEMMELL, Caleb |
| 17:15 | [280] Probing axion-like particles with $\gamma\gamma$ final states from vector boson fusion processes at the LHC | SHERIDAN, Elijah |
