

PPC 2021: XIV International Workshop on Interconnections between Particle Physics and Cosmology

Wednesday 19 May 2021

Light DM Detection 2 (16:00 - 17:30)

-Conveners: Alexis Plascencia

| time | [id] title | presenter |
|-------|--|-----------------------|
| 16:00 | [155] Sources of Low-energy Events in Sub-GeV Dark Matter Detectors | DU, Peizhi |
| 16:15 | [140] An Attractive Scenario for Light Dark Matter Direct Detection | GEHRLEIN, Julia |
| 16:30 | [206] Dark Matter Daily Modulation With Anisotropic Organic Crystals | Dr BLANCO, Carlos |
| 16:45 | [133] Halo uncertainties in electron recoil events at direct detection experiments | MAITY, Tarak Nath |
| 17:00 | [94] The PADME experiment | LONG, Elizabeth Sarah |
| 17:15 | [198] Status of the NEWS-G dark matter experiment | BROSSARD, Alexis |
