Dear MyeongJae,

thanks for your message. I am currently at a conference and will be traveling at the time of the call, so unfortunately I will not be able to attend the call. You asked to share current plans about speaker invitation plans in advance with you. I attached preliminary list that I had circulated to the WG5 convenors (I cc'ed them here also). They might want to provide more additions before the call on Tuesday. Danny, Richard, will you be able to attend the call ?  
best regards,

Carsten

Sterile neutrinos:

(The sterile neutrino talks might be a combined session with WG1 (Neutrino Oscillations))

Sterile Neutrino Search at JSNS2 [Experimental talk] (Takasumi Murayama)

Sterile Neutrino Searches at IceCube [Experimental talk]

Sterile Neutrino Searches SBN Status [Experimental talk]

PMNS matrix unitarity:

PMNS matrix unitarity measurement with IceCube - Tau neutrino appearance and potential for IceCube Upgrade [Experimental Talk] (IceCube collaboration)

Dark Matter and BSM physics

- Search for Dark Matter at Neutrino Telescopes
- Light scalar dark matter
- BSM physics at Hyper-K
- BSM physics at DUNE
- BSM physics at IceCube / Neutrino Telescopes

Dear Nufact 2019 SPC members and WG convenors,

Thank you for your poll to decide next SPC meeting. We decided to have it : **May 21, 11PM KST (11PM JST, 10PM CST, 9AM CDT, 4PM CEST)**. The agenda will be:

1. LOC report
2. Plenary invitation discussion
3. WG report on current status : we would like to hear your parallel session preparation status. If the WG convenors can send us any document (such as current speaker invitation plan) in advance, that will be the best.

The Zoom connection information will be sent later.

And thank you for your contributions on generating plenary talk plan. Attached is the current status, and we are still receiving your comments on improving the plenary invitation.

We hope to see you all in the SPC meeting.

Best regards,

MyeongJae Lee  
On behalf of Nufact 2019 SPC chair

Dear Nufact 2019 SPC members and WG convenors,

Today, we planned to have SPC meeting and we were supposed to discuss on the plenary talk schedule. However, the nomination on the plenary talks are not enough at this time, and in this status, it may be better to postpone the SPC meeting in order to have better discussion.

In this sense, **SPC chair would like to postpone today's meeting to next week, between 16th and 23rd**. We are sorry for late notice.

A Doodle poll is prepared to choose the meeting date : <https://doodle.com/poll/9siv3zk8p287u7qa> . The poll will be closed at May 15, 9AM KST (2AM CEST, 7PM -1day CDT).
