

Preliminary Questionnaire (45 participants, answer by show of hands)

- | | Yes | No | Abstain |
|---|---------------------|------------------|--------------|
| 1. Is the SM completely satisfactory? | 5 | 38 | 2 |
| 2. If answer to 1 is No, is it more because of observational or of structural problems? | observational
20 | structural
18 | Abstain
7 |
| 3. If answer to 1 is No, can the improvement come: | | | |
| A) from pure thought | 5 | | |
| B) from experiment only | 4 | | |
| C) from a combination of both | | | 29 |

Discussion

1. If A above, which are the most promising directions?
2. If B/C above, which are the most promising directions?

discussion too messy ...
useless to try synthesize 🙄
