

Help for the design of vacuum equipment

www.cern.ch/vacuum-design

Teddy Capelli – teddy.capelli@cern.ch

Luca Dassa – luca.Dassa@cern.ch

General information

This is the result of contributions from **TE-VSC** and **EN-MME** groups.

It gathers many usefull informations for the design of vacuum equipments such as :

- Catalog of standard components with various datas :
 - Material
 - Reference (SCEM, supplier ref, ISO ..)
 - Smarteam reference
 - Dimensions
 - Case of use
- Catalog of standard instrumentation
- Rules for the design
- Stickers for drawing
-

Conclusion

- Corrections or suggestions are more than welcome !!
- Do not hesitate to contact us :
