

Acoustic & Radio EeV Neutrino Detection Activities

Tuesday, 7 June 2022

Ice Radio Experiments 1 (09:10 - 11:30)

-Conveners: Anna Nelles

time	[id] title	presenter
09:15	[127] The Askaryan Radio Array: latest results and ongoing work.	TOSCANO, Simona
09:35	[78] Results from the ARIANNA high-energy neutrino detector	GLASER, Christian
10:00	[130] The Payload for Ultrahigh Energy Observations (PUEO)	CUMMINGS, Austin Lee
10:20	[91] The Radio Neutrino Observatory Greenland (RNO-G): Status Update	HALLMANN, Steffen
10:40	[83] Triboelectric events in RNO-G	CATALDO, Maddalena
10:55	[82] Searching for air showers with RNO-G	HENRICHS, Jakob
11:10	[132] Deep Learning for the Classification and Recovery of Cosmic-Ray Radio Signals Against Background Measured at the South Pole	COLEMAN, Alan
