

Tenth Intl. Workshop on Pixel Detectors for Particles and Imaging

Tuesday 13 December 2022

Radiation damage studies: Radiation damage studies - North Ballroom (15:50 - 17:50)

-Conveners: Hans-Gunther Moser

time	[id] title	presenter
15:50	[65] Silicon detector R&D for the future Electron-Ion Collider	LI, Xuan
16:10	[135] Experimental Study and Empirical Modeling of Long Term Annealing of the ATLAS18 Sensors	ORR, Robert
16:30	[172] Hadron damage investigation of FBK and HPK low gain avalanche detectors	SORENSEN, Josef Daniel
16:50	[178] Simulated performance and calibration of CMS Phase-2 Upgrade Inner Tracker sensors	VAMI, Tamas Almos
17:10	[32] Results on 3D pixel sensors for the CMS upgrade at the HL-LHC	CECCARELLI, Rudy
17:30	[183] Pixel Sensor Characterization	EBRAHIMI, Aliakbar MESCHINI, Marco
