

FINAL CONFERENCE

Smart Sensor Technologies and Training for
Radiation Enhanced Applications and Measurements

16th - 17th September 2019

IdeaSquare at CERN, Geneva, Switzerland

Scientific Program

Smart Sensor Design
CMOS Technologies Assessment
Instrument Validation and Qualification
Technology Integration and Valorisation

Invited Speakers

P. Biro, Venture Kick (Switzerland), *"Venture capital adventures, start-ups and innovation"*
E. Toledano and Y. Roizin, Tower Jazz (Israel), *"High resolution imaging sensors"*
A. Pezous, CERN (Switzerland), *"Knowledge Transfer Activities at CERN"*
G. Jose, University of Leeds (UK), *"Integrated photonics and advanced manufacturing with femtosecond laser"*

This conference is organised in the framework of the STREAM ITN (stream.web.cern.ch).
STREAM Innovative Training Network makes advancement in CMOS Technologies Assessment,
Smart Sensor Design, Validation and Qualification and in Technology Integration and Valorisation.
STREAM ITN has received funding from the Horizon 2020 Programme under the GA No. 675587.
