

Performance of the CMS Detector and Electronics During First LHC Beam Operation

Friday, September 24, 2010 9:40 AM (20 minutes)

The performance of the CMS detector during the first operation with beam from the LHC is reviewed. The talk will discuss the overall performance of the CMS detector with some emphasis on operational aspects related to electronics

Primary author: Prof. RYD, Anders (Cornell University)

Presenter: Prof. RYD, Anders (Cornell University)

Session Classification: TOPICAL DAY: Performance of LHC detector and electronics under first beam conditions
