

Welcome to the 10th NExT PhD Workshop

March 29th - April 1st 2021

History of NExT

- NExT Institute created in 2006 next-institute.ac.uk

Created to initiate interactions and collaborations between theory and experiment. New connections between Experiment and Theory

- NExT PhD (really ECR) Workshop - this is the 10th edition

In fact, this 10th workshop was postponed from summer 2020.

11th edition is later in the summer.

[Link to the Timetable](#)

Platforms

- Lectures: Via **Zoom** (find link on Indico page after login)
- Please use the Zoom app - better experience
- **Mattermost:** Chat facility

Questions for lecturers - see individual channels

Quick questions for organisers

- **Remo:** For breaks and lunches.

First session: Lunch today

Hopefully will promote social side

Talks and Posters

- **Participant talks:** Monday, Wednesday

Stick to time please! 5 minutes per talk.

Hosted by: Nourhan Hendawy with Stefano Moretti / Saeed Vahedikamal with Andrea Banfi.

- **Poster Session:** Thursday

We will use Zoom breakout rooms, one for each poster.

Encouraged to pop in and out, ask questions and engage with the presenters

- Prizes for best talk and poster

Employer Session

- Very lucky to have employers giving up their time

Excellent opportunity to hear and ask about jobs in industry

Make some contacts!

[Bios of the panel members - take a look](#)

Remo

- Encourage everyone to register/logon now.

Instructions and links on the Indico page (Videoconference Links)

Virtual tables, can freely move around, chat in small groups

An event is running now - try it out for a few minutes

Ask those who volunteered to kick off some tables at lunch today

Remo events will be running in most breaks
Opportunity to talk socially with participants
and lecturers

Have Fun!

- Please let us have any feedback so that we can improve the experience - Mattermost or email
- There will be a more formal survey publicised later in the week.
- Above all else this week have fun!
