

# Containers deployment

- Singularity >3.2.1 **ok**
- User name spaces wherever possible **ok**
- Using executable from /cvmfs unless in \$PATH **ok**
  - ATLAS thinking to install its own version because atlas repos only guaranteed to be mounted without asking
    - GPU nodes need **always use nv = yes**
- Underlay **MUST** be enabled **ok**
- -C
  - batch system → singularity → pilot → singularity -C **ok**
  - batch system → singularity -C → pilot → singularity -C **not ok**
  - on GPU nodes pilot → singularity -C **not ok**
