

Thank you for this great workshop !

PyHEP 2019 workshop - closeout

- ❑ **Fantastic talks & lively and interesting discussions !**

- ❑ **Live notes:** please have a look ([link](#)), particularly to the section on your talk
 - You may have questions to reply to / comment on ;-)
 - Add your name to the top if you contribute

- ❑ **Considering building a proceedings**
 - Likely one single summary, ideas welcome
 - All **talks will be put on [Zenodo](#)** as we did last year – you get a publication DOI

- ❑ **Post-workshop survey** will be sent to you at some point soon
 - Please spare 5 minutes (really, just that). It will be really helpful

- ❑ **Communication channels:**
 - [GitHub repository of resources](#), e.g., Python libraries of interest to Particle Physics
 - HSF PyHEP [Gitter channel](#)
 - See also other “specialized channels” at <https://hepsoftwarefoundation.org/workinggroups/pyhep.html>

PyHEP 2019 workshop - closeout

- ❑ **HSF / FIRST-HEP Software Carpentry tutorials at CERN**
- ❑ **Goal: teach fundamental research computing skills at CERN, 27-29 Nov, 2019**
- ❑ **Website: <https://indico.cern.ch/event/834411/>**
- ❑ **Organisers are looking for volunteers to be helpers for students, see <https://doodle.com/poll/7n9dpbhhmyk9hcm2> if you are interested**
