For Community By Community: Collaboration Success Program

John Kamminga, UC Merced
Erin Murtha, InCommon
Ann West, InCommon

UC Merced's Challenge Before the Collaboration Success Program

- UC Merced migrated off SUN Waveset Identity Management system to an interim homegrown solution

- Our biggest needs were
  - Identity registry to hold all of our user data and provisioning logic
  - Access management system that we could delegate control to our campus admins to administer

Common Solutions Featured in the Program

Managing Access

Scholarly Collaborations

Guest Systems

Student, Faculty and Staff Lifecycle Management

Collaboration Success: Strength in Numbers

What is the Collaboration Success Program?

Community collaborative to help you solve your identity and access management challenges using research and education common practices and approaches

How does the program work? You get...

- Planning help, training series and integration practicum
- Priority access to developers, architects, and community experts
- Implementation of trusted community practices and software

Program Benefits

Collaborate with a like-minded cohort

Priority access to the right experts at the right time

Direct support and advice via Slack, email, & facilitated sessions

Learn in training workshops

Receive lifetime training discounts

Move your project plans forward

CSP 2020 Roadmap

InCommon.

Sept 2019 — **Oct.** — **Oct. - Dec.** — **Jan. 2020** — **Jan. - Mar.** — **Apr.**

Expression of Interest	Cohort Announced	Component Training	Program Kick Off	Collaborate	Wrap Up + Share

1. Complete a brief questionnaire to share your plans by 9/20/19

2. Talk with us to determine program fit

Philadelphia, PA

midPoint

Program Alumni

What worked for UC Merced:
Access to the right people at the right time

- Access to in-depth expertise on identity management, software components, and campus implementations
  - Experts to look over our Architecture
  - Setting up a working midPoint provisioning system
- Training (midPoint and Grouper)
- Just-in-time problem solving
- Engaged cohort of peers for ideas, advice, and collaboration
- Staying engaged after the program concluded
