Welcome to the
7th Patatrack Hackathon

The Patatrack Team

Challenging challenges

The Phase 2 upgrades involve
- new detectors
- new technologies
- new possibilities

Do not confuse …

We don't know how to do it $\longleftrightarrow$ It cannot be done

We have never done it $\longleftrightarrow$ We don't need to do it

- Disrupt ! Embrace the change ! Try new approaches !

Idea Square

- Idea Square
  - Thanks to Markus Nordberg for making this possible!
- Different rooms to work in depending on working-groups size
- Coffee is free, but never have coffee alone!
- Lunches and coffee breaks are included, let us know if you wish to join us, as we're going to prepare them ourselves ;-)
  - A different group will help us cleaning the kitchen after each lunch
- We will call you for lunch on Mattermost and assume you're not eating with us 20 minutes after the call
- Please don't take food or coffee out of the kitchen
- You use something in the kitchen, wash it

Getting started

There are several projects which have been proposed

- Feel free to join or start a new project and convince people to join!
- This morning try to discuss and create working groups
- At 17:00 today, each working group will present themselves, the challenges of their project and what they will try to achieve during the hackathon

Format - Scrums

Every day at 17:00 a different member of each group will present exactly two slides:

1) description of previous problem and how your team solved it

2) description of the next problem and how you'll try to solve it

Mattermost

Join CMS Experiment team:

- https://mattermost.web.cern.ch/signup_user_complete/?id=3crjwutrzpdpfk18m36k85b1tc
- Join the 7th PatatrackHackathon channel

Social BBQ Dinner

- It will be held at the Prevessin BBQ site this evening starting from 8pm

- Concluded with the traditional Werewolves game

- Let us know if you have a +1 (+30CHF) as we are going to buy meat this evening

- Veggie option → Sioni
