ARTS AT CERN
Creativity across Cultures
Arts at CERN is the official arts program of CERN and the leading worldwide art and science programme fostering the dialogue between artists and physicists.
Vision

To foster **significant exchanges** between art & physics.

To participate of an **international cultural community** eager to connect with CERN.
Framework

Artists across all creative disciplines are welcome to experience the way the big questions about our universe are pursued by fundamental science.

The artists must apply to the open calls to take part in our programs.

Each program (except from the guest artists) runs an annual competition, with a jury board formed by cultural and scientific experts.
Collide Program

A residency award of up to three months to invite artists to further their artistic practice in connection with fundamental research at CERN
Accelerate Award

A country-specific award for artists from different geographies to access the residencies program at CERN for one month.
Guest Artists

This programme aims to show what the laboratory offers to the arts and creativity from an interdisciplinary approach.
Simetría – Pro Helvetia

An artistic residency exchange between CERN and ALMA-ESO Chile.
Art Commissions and Exhibitions

Fosters artistic production resulting from the dialogue between art & physics.
500 - 1000 applications/year
49 – 72
