

Session Program

24-25 Oct 2019

ELECTRONS FOR THE LHC: Workshop on the LHeC, FCC-eh and PERLE

Session IV (Physics Symbiosis of LHC and LHeC)

Chavannes de Bogis

Thursday 24 October

16:30

Session IV (Physics Symbiosis of LHC and LHeC)

Session | **Location:** Chavannes de Bogis | **Convener:** Paul Richard Newman

16:30–16:50

Prospects for Higgs Physics at the LHC (vidyo)

Speaker

Marumi Kado

16:50–17:10

Higgs Physics at the LHeC

Speaker

Bruce Mellado Garcia

17:10–17:30

Physics Beyond the SM - I

Speaker

Oliver Fischer

17:30–17:45

Physics Beyond the SM - II

Speaker

Georges Azuelos

17:45–18:00

Precision MW with LH(e)C

Speaker

Ludovica Aperio Bella

18:00–18:25

Electroweak Physics at the LHC with ep

Speaker

Maarten Boonekamp

18:25–18:50

eA Physics at LHeC and its Relation to HI at the LHC

Speaker

Brian Cole

18:50–19:15

Novel Physics Opportunities at the LHeC

Speaker

Stanley J. Brodsky

19:15
