

3rd FCC Physics and Experiments Workshop

Tuesday, 14 January 2020

Tracking - 4/3-006 - TH Conference Room (15:20 - 18:00)

time	[id] title	presenter
15:20	[124] Mixed cooling solutions for the Belle II vertex detector	Dr YE, Hua
15:45	[131] Progress on ARCADIA	PATERNO, Andrea
16:10	Coffee break	
16:40	[123] Power consumption of ILD CMOS vertex detector with/without power pulsing	BESSION, Auguste Guillaume
17:05	[126] Challenges and future perspectives for monolithic sensors, stitching, timing, etc.	SNOEYS, Walter
17:30	[127] Future directions for pixel detectors: timing and pixel size performance	MACCHIOLO, Anna
