

Session Program

3-4 Dec 2019

ISOLDE - EPIC 2019

Needs and benefits of 2 GeV high intensity protons for ISOLDE

CERN, 503/1-001 - Council Chamber

Wednesday 4 December

09:00

Needs and benefits of 2 GeV high intensity protons for ISOLDE

Session | Location: CERN, 503/1-001 - Council Chamber | Convener: Simone Gilardoni

09:00–09:20 New beam dumps for ISOLDE: status and perspectives

Speaker
Marco Calviani

09:30–09:50
Extending the irradiation capabilities in the ISOLDE target area: Possibilities and Benefits

Speaker
Joachim Voltaire

10:00–10:15 Isotope production in the beam dumps: Present and future options

Speaker
Thierry Stora

10:30

10:20–10:30 General Discussion
