

QWG 2021 - The 14th International Workshop on Heavy Quarkonium

Monday 15 March 2021

Day 1 Morning: Decay (07:00 - 09:30)

-Conveners: Chengping Shen; Antonio Vairo

time	[id] title	presenter
07:00	[11] Hyperon polarization and decay properties from J/Psi and Psi' at BESIII	PING, Ronggang
07:20	[12] New chi_cJ results at BESIII	JIAO, Jianbing
07:40	[13] Measurements of eta_c and h_c decay into light hadrons at BESIII	KUESSNER, Meike
08:00	[14] psi(2S) decays involving baryon final states	YAN, Liang
08:20	Coffee Break	
08:30	[15] O(alpha_s v^2) corrections to hadronic decay of vector quarkonia	FENG, Feng
08:50	[16] Quarkonium decays at Belle	STOTTLER, Zachary
09:10	[17] Dipion transitions and bottomoniumlike states	HANHART, Christoph
