

# QWG 2021 - The 14th International Workshop on Heavy Quarkonium

## Tuesday 16 March 2021

### Day 2 Morning: Spectroscopy (II) (07:00 - 09:35)

-Conveners: Roman Mizuk; Nora Brambilla

| time  | [id] title  | presenter                   |
|-------|---|-----------------------------|
| 07:00 | [49] Excited bottomonium spectroscopy               | RYAN, Sinead                |
| 07:20 | [52] Properties of X(3872) at LHCb                  | NEEDHAM, Matthew David      |
| 07:40 | [44] X Atoms, Feng Kun Guo                          | Prof. GUO, Feng-Kun         |
| 08:00 | [46] Charmonium-like resonances in DDbar scattering | Dr MADANAGOPALAN, Padmanath |
| 08:20 | Coffee Break  |                             |
| 08:30 | [57] Zc and Zcs studies at BESIII                   | GUO, Yuping                 |
| 08:55 | [59] News of X(3872) from BESIII                    | LIU, Zhiqing                |
| 09:15 | [50] Charmonium(like) states at Belle               | LI, Yang                    |
