

LXX International conference "NUCLEUS –2020. Nuclear physics and elementary particle physics. Nuclear physics technologies"

Contribution ID: 3

Type: **Oral report**

## HIGGS AND COSMOLOGY

I review the role of the Higgs boson as a unique probe of the hidden sector, which has direct implications for dark matter physics and inflation. This framework leads to specific signatures at the LHC.

**Author:** LEBEDEV, Oleg (University of Helsinki)

**Presenter:** LEBEDEV, Oleg (University of Helsinki)

**Session Classification:** Will not participate

**Track Classification:** Section 4. Relativistic nuclear physics, elementary particle physics and high-energy physics.
