

# WG7

1. Beam back @ CERN on middle 2021
2. Collaboration needs in view of future RD51 test beam @ CERN
  - 2.1 Survey
  - 2.2 Update of the wg7 mailing list to have efficient exchanges
  - 2.3 Updates of the trackers electronics -> VMM (rate, timing compared to APV)
3. Beam outside cern
  - 3.1 **not directly/logistically supported ...**
  - 3.2 ... but hardware/tools , if available, will be shared
  - 3.3 List of beam -> Table from Christoph and Henric attached to the meeting page
  - 3.4 Irradiation Facilities database -> <http://irradiation-facilities.web.cern.ch/>
  - 3.5 BTTB workshop -> <https://indico.cern.ch/event/731649/> (last meeting)
  - 3.4 Experiences and contact in RD51: today session, non exhaustive
