

Thanks!

Many thanks for the inputs before today and the lively discussions today!

Next Steps

- We should prepare a document to be submitted in December
- WGs will try to summarise and draft their input in the next days
 - If you have more input please add it to the gDocs ASAP
 - This may require one more round of WG meetings
- We plan to prepare a survey to try to get a broad picture of the feelings of this group of ECRs
- The draft document will be compiled and circulated to everyone for comments
