Session Program

16-17 Sept 2019

Jornadas CeFEMA 2019 Condensed Matter Theory

Instituto Superior Tecnico, Campus Alameda, Anfiteatro Abreu Faro

Monday 16 September

| 11:00-11:15 Interacting Quantum Matter, Non-Equilibrium and Topology Speaker Prof. Pedro Ribeiro 11:15-11:30 Quantum Open Systems with Matrix Product States Speaker Miguel Oliveira 11:30-11:45 Disordered topological systems Speaker Miguel Gonçalves 11:45-12:00 The vortex, the impurity, and the finitude of bound states Speaker Speaker | Speaker Prof. Pedro Ribeiro 11:15-11:30 Quantum Open Systems with Matrix Product States Speaker Miguel Oliveira 11:30-11:45 Disordered topological systems Speaker Miguel Gonçalves 11:45-12:00 The vortex, the impurity, and the finitude of bound states | |
|---|--|------------------------------|
| 11:15-11:30 Quantum Open Systems with Matrix Product States Speaker Miguel Oliveira 11:30-11:45 Disordered topological systems Speaker Miguel Gonçalves 11:45-12:00 The vortex, the impurity, and the finitude of bound states | 11:15-11:30 Quantum Open Systems with Matrix Product States Speaker Miguel Oliveira 11:30-11:45 Disordered topological systems Speaker Miguel Gonçalves 11:45-12:00 The vortex, the impurity, and the finitude of bound states | Matrix Product States |
| Speaker Miguel Oliveira 11:30-11:45 Disordered topological systems Speaker Miguel Gonçalves 11:45-12:00 The vortex, the impurity, and the finitude of bound states | Speaker Miguel Oliveira 11:30-11:45 Disordered topological systems Speaker Miguel Gonçalves 11:45-12:00 The vortex, the impurity, and the finitude of bound states | Matrix Product States |
| Miguel Oliveira 11:30-11:45 Disordered topological systems Speaker Miguel Gonçalves 11:45-12:00 The vortex, the impurity, and the finitude of bound states | Miguel Oliveira 11:30-11:45 Disordered topological systems Speaker Miguel Gonçalves 11:45-12:00 The vortex, the impurity, and the finitude of bound states | |
| 11:30-11:45 Disordered topological systems Speaker Miguel Gonçalves 11:45-12:00 The vortex, the impurity, and the finitude of bound states | 11:30-11:45 Disordered topological systems Speaker Miguel Gonçalves 11:45-12:00 The vortex, the impurity, and the finitude of bound states | |
| Speaker Miguel Gonçalves 11:45-12:00 The vortex, the impurity, and the finitude of bound states | Speaker Miguel Gonçalves 11:45-12:00 The vortex, the impurity, and the finitude of bound states | |
| Miguel Gonçalves 11:45-12:00 The vortex, the impurity, and the finitude of bound states | Miguel Gonçalves 11:45-12:00 The vortex, the impurity, and the finitude of bound states | ns |
| 11:45-12:00 The vortex, the impurity, and the finitude of bound states | 11:45-12:00 The vortex, the impurity, and the finitude of bound states | |
| | | |
| Speaker | - Energy and the second s | the finitude of bound states |
| | Бреакег | |
| João Bráz | João Bráz | |
| | 12:00-12:15 Tracking Topological Phase Transitions | ansitions |
| João Bráz | | the finitude of bound states |
| | 12:00-12:15 Tracking Topological Phase Transitions | ansitions |
| 12:00-12:15 Tracking Topological Phase Transitions | | |
| João Bráz | João Bráz | 1 |
