Wednesday, 4 September 2019

Session 4: Black Holes and Gravity (18:00 - 01:00)

time	[id] title	presenter
18:00	[48] Exploring fundamental Physics with Gravitational Waves	KOBAKHIDZE, Archil
18:45	[49] Primordial Black holes	GARCIA-BELLIDO, Juan
19:30	[59] Supergravity and Cosmology	KALLOSH, Renata
20:15	Coffee break	
20:45	[51] Eternally inflating multiverse and many worlds in quantum mechanics: same concept?	NOMURA, Yasunori
21:25	[52] Testing the Quantum Coherent Behavior of Gravity	BOSE, Sougato
22:05	Lunch break	
00:00	[50] Quantum Insights on Primordial Black Holes as Dark Matter	VIDOTTO, Francesca
00:30	[58] The dark side of gravity and the acceleration of the Universe	HENRY-COUANNIER, Frederic
