Grid Security Policy

- New top-level document
  - To replace very out of date LCG-specific version
- See **https://edms.cern.ch/document/428008/4**
- V5.6 (24 Apr 2007)
- V5.7 (28 June 2007)

  - Updates to Compliance (section 5)
- Now out for "final call"
  - Some comments already received
  - No major changes expected – hope to delay anything major to next version
- GDB approval by e-mail? (or wait for Aug meeting?)
  - But may need to produce V5.8

VO Operations Policy

- First draft prepared by OSG

- JSPG agreed document last week (V1.0)

  – *https://edms.cern.ch/document/853968/1*

- Similar form to the Site Operations Policy

  – VO Managers required to accept and sign

- Some comments already received

  – Will now consult other VOs

  – Will also consult CERN lawyers

- Aim for approval at later GDB (Aug or Oct?)

- Please comment

Grid Services Policy

JSPG decided

- We need a general Grid Services Operations Policy
  - Similar to Site and VO Operations policies
  - To describe general responsibilities, liabilities etc.
- BUT… we also need some more specific policies
- So work on these first…
  - VO Boxes
  - Pilot Jobs
  - Grid Portals
    - JSPG will work on this with EGEE Portals WG

VO Box Policy

- This was written a long time ago (David Groep)
  - Generally accepted
  - But never formally approved
- *VO-Box Security Recommendations and Questionnaire*
  - https://edms.cern.ch/document/639856/0.6
- Will GDB approve this document as is?
  - Need to change status from "draft"
  - Two week time limit?

Pilot Jobs Policy

- JSPG prepared a draft policy last week
- Heavily based on the FNAL policy
  - Many thanks to them
- V0.1 produced at last week's JSPG
  - *Policy on Grid Pilot Jobs*
  - *https://edms.cern.ch/document/855383/1*
- Early draft, but comments welcome
  - JSPG still needs to do more tuning before V1.0

User-level Job Accounting

- JSPG decided to work first on the user-level accounting rather than the general policy on "personal logged information"

- V0.5 came out of last week's JSPG

- *Grid Policy on the Handling of User-Level Job Accounting Data*

  - *https://edms.cern.ch/document/855382/1*

- Early draft, but comments welcome
  - JSPG still needs to do more tuning before V1.0

Requests to GDB

Please…

- Final Call on Grid Security Policy (V5.7)
  - E-mail approval of V5.8?
- Comment on VO Operations Policy
  - For approval at later GDB meeting
- Approve VO Box policy
  - By e-mail (2 weeks?)
- Comment on Pilot Jobs policy
- Comment on User-Level Accounting Data
