ISMD2021

Welcome to ISMD2021

The 50th International Symposium on Multiparticle Dynamics...
And (by necessity) the first virtual one!

ISMD is a “mixing pot” conference between all facets of QCD

Between pp, ep, pA, AA collider experiments,
nuclear physics, cosmic-ray physics,
hadron-structure measurements and calculations,
hadron spectra and QCD impacts on flavour physics,
lattice and perturbative methods,
precision vs phenomenological studies

⇒ above all, exchanges of ideas and opinions

ISMD2021

Programme

We have a busy conference...

- 132 abstracts → 60 talks, 14 flash talks, 63 posters, 213 registrations!
- Please upload in advance and keep to time! Discussion is important
- Use Zoom “raise hand” and chat to ask questions... and break-times

Conference sessions

- Most sessions are 1h = 3 or 4 talks + questions/discussion
- Two sessions at a time, followed by 2 “flash talks” highlighting posters
- Break times via Zoom breakout rooms or...
- **Mozilla Hubs poster rooms (sessions on Mon & Tue evenings)**
- Also accessible at all other times for browsing or social meet-ups
- **Special keynote and “excursion” talks on Wed**

Poster sessions

- “Posters” include pre-recorded talks
- Some freedom for multi-page posters
- Poster rooms in browser-based Mozilla Hubs
 - joining URLs + instructions **on website**

Poster prize and MDPI

- Poster prize of 400 CHF + publication APC in Universe (*not for pre-recs!*) sponsored by MDPI/Universe
- MDPI are also interested in collecting ISMD-related original research for special issues...

universe

an Open Access Journal by MDPI

ISMD2021

Acknowledgements

Thanks!

- All our brilliant & hard-working track conveners
- Organising committee (and IAC + Board of Elders)
- MDPI for poster-session support and DESY for Zoom services
- You, for attending and engaging...

Have a great conference!
