

50th International Symposium on Multiparticle Dynamics (ISMD2021)

Tuesday, 13 July 2021

Forward and diffractive physics: 1 (14:30 - 15:30)

-Conveners: Lucian Harland-Lang

time	[id] title	presenter
14:30	[87] Measurement of Exclusive $\pi^+\pi^-$ and ρ^0 Meson Photoproduction at HERA	TAHYS, Janssen
14:50	[115] Recent CMS results on soft QCD physics	Mr GUPTA, Rajat
15:10	[194] Photon-photon fusion and ultra-peripheral physics with ATLAS	STASZEWSKI, Rafał

Thursday, 15 July 2021

Forward and diffractive physics: 2 (17:15 - 18:15)

-Conveners: Deniz Sunar Cerci

time	[id] title	presenter
17:15	[127] The odderon discovery by the D0 and TOTEM collaborations	ROYON, Christophe
17:30	[184] Optimizing the Signal of Odderon	CSORGO, Tamas STER, Andras
17:45	[165] BFKL phenomenology: resummation of high-energy logs in inclusive processes	MOHAMMED, Mohammed Maher Abdelrahim
18:00	[207] Photon-hadron production and angular correlations in high energy proton-nucleus collisions	JALILIAN-MARIAN, Jamal
