

# STFC evaluation of CTA

## Tape library support

Steven Murray

# CTA tape library support

- CTA supports SCSI
  - IBM tape libraries
  - MhVTL virtual libraries
  - Oracle libraries with an additional SCSI interface
  - Spectra Logic libraries
- CTA does **NOT** support ACSLS
  - ACSLS is used by Oracle libraries
  - Many possible solutions could be implemented, for example:
    - Tape server → External script
