

# Initial Stages 2021

## Thursday 14 January 2021

### FE: 1 - Andrea's room 1 (15:30 - 16:55)

-Conveners: Silvia Masciocchi

| time  | [id] title   | presenter     |
|-------|--|---------------|
| 15:30 | [249] Invited: Theory questions to FE                                  | STASTO, Anna  |
| 15:55 | [179] The sPHENIX experiment at RHIC                                   | BATHE, Stefan |
| 16:15 | [12] Heavy flavor and jet studies for the future Electron-Ion Collider | LI, Xuan      |
| 16:35 | [64] STAR Heavy Ion and Cold QCD programs for 2021+ runs               | Dr LIN, Ting  |

### FE: 2 - Andrea's room 1 (17:10 - 18:10)

-Conveners: Christine Aidala

| time  | [id] title  | presenter                       |
|-------|---|---------------------------------|
| 17:10 | [149] Prospects for the NA60+ experiment at the CERN SPS                              | PRINO, Francesco                |
| 17:30 | [13] Probing gluon saturation via semi-inclusive deep inelastic scattering at the EIC | Dr TRIANTAFYLLOPOULOS, Dionysis |
| 17:50 | [104] Probing small-x gluons with the ALICE Forward Calorimeter upgrade               | NOVITZKY, Norbert               |
